

# 4 Pack System

# 4 Pack System

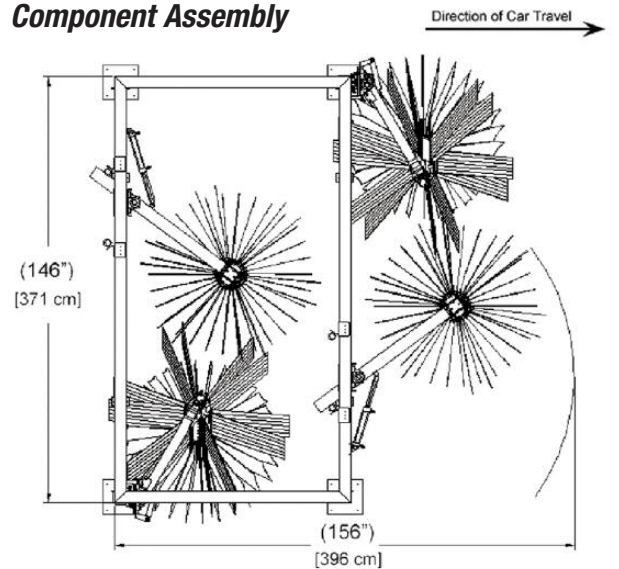

The 4-Pack Flex Wrap combines a set of flex wrap brushes and angled side brushes in a space slightly larger than a flex wrap brush alone. This unique configuration packs four counter rotating 70" washers within 13 feet of conveyor space.

The Flex Wrap brushes and Angled Side brushes actually rotate in opposite directions. This counter rotating brush action cleans better in areas like the front and back of mirrors as well as the outer wheel well and rocker panel areas. Hanna's exclusive cloth cut allows for faster brush rotation and cleaning action without increasing vehicle incident.

The Hanna 4-Pack Flex Wrap has a high pivot point that allows the brush to move smoothly around the outer edges of the vehicle. This increases cleaning action on the front and rear of all vehicles. Enhanced controls offer separate retract and extend pressures for each arm as well as float pressure for the mirror area. Hanna's Angled Side Brushes contour to the shape of all vehicles and is taller than most side brushes. This allows better cleaning of the top side window area of sport utility vehicles and mini vans. The 4-Pack system is available as a free standing component. einer Komplettanlage erhältlich.

## Component Assembly

## Design Features

### Construction

- Aluminum or Stainless Steel frame, gussets, and posts
- Stainless Steel Arms and Shaft Assembly
- Hanna Soft Cloth
- Lite-Foam or Neo Glide (option)
- Hydraulic

### Standard Dimensions

- Operating Space: 13' (396 cm)
- Standard Vehicle Clearance: 90" (229 cm)
- Optional Vehicle Clearance: 96" (244 cm)
- Width 12'2" (371 cm)
- Length 13' (396 cm)

### Design features

- Counter rotating brushes
- High pivot point for smooth brush travel

## Technical Data

- Speed: 50-60 RPM  
Hydraulic: 6 GPM (22.7 l/min)  
Pneumatic: .02 CFM (91.0 l/min @ 3 bar)
- Speed: Angled Side Washer – 40-50 RPM  
Hydraulic: 3.0 GPM (9.51 l/min)  
Water: 12 GPM @ 40 PSI (91 l/min)  
Cloth Type: Hanna Soft Cloth
